### Why You Need an Umbrella Policy

Unfortunately, bad things happen from time to time. And sometimes really bad things happen — a horrific car crash or a tragic accident. These types of catastrophic losses could wipe you out financially, if you're not protected properly.

A [personal umbrella policy](#) provides an extra layer of liability protection. It's for times when the liability limits on your auto or home insurance aren't enough. The policy offers an additional \$1 to \$5 million in coverage for you and eligible family members if you're held liable for personal injury or property damage claims. The coverage comes at a very affordable price. Contact our agency for more information.

### Let Us Help

Fix a leaky faucet. Check the air in your car tires. Review your insurance coverage. Some tasks you might prefer to do it yourself, but managing your insurance may not be one of them.

With our agency and Erie Insurance, you get lots of good stuff: answers to all of your questions, just the right coverage you need (at a fair price) and the promise of top-notch service. Isn't it time we talked? Get in touch with our agency today.

### How Safe is Your Next Car?

Thinking about a new car? If you factor safety into your choice (most people do), then you'll want to know what vehicles are the safest to buy. The Insurance Institute for Highway Safety recently gave its Top Safety Pick awards to a whopping [115 vehicles](#).

Learn more about the winners' circle and what insurance coverage you might need for a new ride at [erieinsurance.com](http://erieinsurance.com).
